### About this item

- **【8K Capture & 1080P Output】** The NexiGo video conference camera captures 360-degree panoramic view at 8K resolution and outputs crisp split images at 1080P with dual 195-degree lenses, ensuring each member is clearly seen in the group video. Additionally, auto white balance and auto exposure features enable the camera to dynamically optimize the skin tones and brightness of the image based on the actual lighting conditions, so everyone always looks their best in the video.
- **【Top-Level Security】** The NexiGo Meeting 360 adopts a secure USB physical connection, no privacy can be invaded by anyone through the wireless Bluetooth/WiFi connection methods. No driver or maintenance required, launching an enterprise-quality video conference has never been so easier. Simply turn the meeting software on, select NexiGo Meeting 360 with microphones as your audio and video device, and the camera is ready to use. Compatible with: Zoom, Skype, Teams, Webex, BlueJeans, and more.
- **【8 Mics & Dual 10W Speakerphones】** 8 omnidirectional microphones pick up voice up to 18ft away, filter out background noise and echo, and deliver crystal-clear audio. Integrated dual 10w full-duplex speakerphones remove interference noise and echo and transmit crisp sound so you can hear the other party clearly. Volume+ / Volume- / Mute buttons on the camera panel are convenient to control audio volume and mute the microphones during the meeting.
- **【Auto Speaker Tracking & Privacy Protection】** The camera AI automatically recognizes who is actively speaking and can

offer focused, close-up shots of each presenter. The pop-up design makes it easy to shield the camera lenses for privacy and security.

- **【Five Video Output Modes & Premium Data Security】** The NexiGo Meeting 360 offers five different meeting visualization modes for various conference needs. NexiGo's product algorithms and firmware are stored and run within its hardware with edge computing technology. All training data in the interaction is in-house owned and generated, it does not require additional data from the users-end. This ensures top-level data security and privacy protection.

#### Excellent conference camera at an attractive price

Reviewed in the United States on October 4, 2022

Verified Purchase

Overall this is an impressive conference camera system. I am using it now in all of my group meetings and everyone who is involved is happy with the results.

The unit arrives in a sturdy box with padding and a carry handle. This is a consistent professional experience with Nexigo products. The box is well-suited to be a regular storage and carry solution for the camera meaning that I don't need to invest in a separate container for it. All that was needed was two spots of velcro to hold down the top flap.

As with other Nexigo products I own, the user manual is easy to read and well-written.

The system is simple in three parts: The main camera, the power supply, and the computer connection cable. There is literally nothing to think about. Plug it all in, the camera and audio are immediately detected, and it works. It's that easy. It connected perfectly on first attempt with my Zoom app on a

#### Great 360 Camera for Conference Calls and Zoom Meetings

Reviewed in the United States on April 13, 2022

Verified Purchase

Great 360 Camera....range for the microphone is truly about 18ft. But you do need to speak in the direction of the microphone. We use this for conferences when people can come LIVE and we Zoom them in. Hopefully, the price point will come down in the future. I would definitely purchase again.

#### This conference style meeting camera works but with a few caveats

Reviewed in the United States on April 1, 2023

**Vine Customer Review of Free Product** ( [What's this?](#) )

The NexiGo Meeting 360 is a combo 360 degree 8k camera, with speakers and several microphones built into it. It has a USB-C connector to connect to your device and a power brick to power the device.

I tried using it with Facebook's messenger. It shows up with it's own name for the webcam, speakers, and microphone settings when you configure it accordingly. It works well, it is not hard to setup and it definitely gets you your conference style camera. The microphone picks up sounds well, and the speakers are loud enough that it provides clear audio in the call.

The settings for the camera are all hardware driven so it is a little bit fixed as far as I can tell. You have your physical mute button and a couple of physical volume buttons to control the speakers directly on the device. The webcam pops up and is able to pick up the entire room and display that in 5 different modes that are not configurable. You are at the mercy of the AI in this case and sometimes it does pick up the audio and shows the right person at the right time. However, most of the time there's a slight delay that would make it hard to focus on who is speaking. Of all the different webcam modes, I found that it was not very good at picking up the focus correctly.

That being said, it is meant to be for a meeting and not to be used to control where the camera is focusing. With that in mind, the lack of customizability is probably the only star that I'm taking off in this case. Otherwise, it is a fully functional and working conference camera to show everyone in a meeting remotely to other people.

#### High-quality 360-degree video conference camera

Reviewed in the United States on March 27, 2023

**Vine Customer Review of Free Product** ( [What's this?](#) )

The NexiGo Meeting 360 (Gen 2) is an 8K 360-degree smart video conference camera that is perfect for remote meetings. It features AI-powered framing and speaker tracking, so you can always be seen and heard, even if you're not sitting directly in front of the camera. The camera also has 1080p HD resolution and 8 noise-cancelling microphones, so your video and audio will be clear and crisp.

The NexiGo Meeting 360 (Gen 2) is easy to use. Simply plug it into your computer and it will automatically start working. You can also use the included software to adjust the camera's settings.

Overall, the NexiGo Meeting 360 (Gen 2) is a great choice for anyone who wants a high-quality 360-degree video conference camera. It is easy to use, has excellent video and audio quality, and features AI-powered framing and speaker tracking.

Pros:

- 8K 360-degree video
- AI-powered framing and speaker tracking
- 1080p HD resolution
- 8 noise-cancelling microphones
- Easy to use
- Great video and audio quality

Cons:

- Expensive
- The camera may not be suitable for people who have a lot of background noise in their environment
