e. Claims.

i. Review Invoices for Claim #39.

There was one invoice from Young Wooldridge, three invoices from DJA, and charges for Director fees and staff recovery. The total claim came to \$9,094.16. There were charges on Invoice # 24-00167 that will be held until the budget adjustment is approved.

f. Lake of the Woods Grants and Projects.

The following updates were provided by Pam Jarecki:

3.5-million-dollar grant - Line Replacement & Permanent Generators:

LOW plans to pave the crossing on Frazier Mountain Park Road in two locations next week. They will be pressure testing, lab testing, and bringing sections of the sub-division online over the next few weeks. Because of weather delays, the project is looking to be finished up in March. Most of the remaining permanent pavement patch will be done based on weather.

The generator project:

We will not hear anything until the later part of 2024.

5-million-dollar grant - South Tank & Line Replacement & SCADA Grant Phase 3 update:

P&P has scheduled a meeting today to go over all the final changes in the field that they have found. They hope to have a draft report and preliminary plans by the end of February.

Well #4:

Well #4 is still offline, they are collecting data on the high iron and manganese.

Blending station:

Nitrates are between 4.3 and 4.8 for the month of January. With the weather, the next few months are when they normally rise. April of last year is when the numbers were concerning.

The new operations plan was submitted and approved on February 7th.

Walls have dropped 1.5 to 2.5 feet from December, but are up 11.5 to 30.5 feet (depending on the well) from this time last year.

Lawrence Sanchez is concerned about “temporary” tie-ins with parts being used to tie into a line that will be abandoned or removed once they start Phase 3. DFA needs to pay for parts for the life of the company or part. The line still needs to stay active. They do not have drawings for the additional 6” line. They will have a meeting today or tomorrow to discuss if LOW will cover the temporary parts and have DFA pay for the permanent ones.

Dee Jaspar would like to have a copy of LOW’s designs, and have a meeting after they are available to go over how Frazier Park will tie-in.

6. Frazier Park Pipeline Replacement Project.

a. Preliminary Engineering Work Paid Through SHE TA Workplan Funds.

i. Potholing and Mapping.

The potholing and mapping is complete.

ii. Engineering and Design.

The preliminary design has been completed to 95% and was included in the project grant application.

iii. Engineering Contract.

The amended contract has been sent to the FPPUD attorney for review.

iv. Project Application.

The audits for 2022 and 2023 have been completed and sent to Carlos Bravo. He still needs the engineering contract and a three year budget (which should be completed by March 14th). He is also updating the TMF and Environmental packages.

v. Review Invoices.

There was one new invoice from DJA for this project. Invoice #24-00139 in the amount of \$14,504.02.

b. SWRCB Grant Funded Project.

f. Lake of the Woods Grants and Projects.

The following updates were provided by Pam Jarecki:

3.5-million-dollar grant - Line Replacement & Permanent Generators:

LOW plans to pave the crossing on Frazier Mountain Park Road in two locations next week. They will be pressure testing, lab testing, and bringing sections of the sub-division online over the next few weeks. Because of weather delays, the project is looking to be finished up in March. Most of the remaining permanent pavement patch will be done based on weather.

The generator project:

We will not hear anything until the later part of 2024.

5-million-dollar grant - South Tank & Line Replacement & SCADA Grant Phase 3 update:

P&P has scheduled a meeting today to go over all the final changes in the field that they have found. They hope to have a draft report and preliminary plans by the end of February.

Well #4:

Well #4 is still offline, they are collecting data on the high iron and manganese.

Blending station:

Nitrates are between 4.3 and 4.8 for the month of January. With the weather, the next few months are when they normally rise. April of last year is when the numbers were concerning.

The new operations plan was submitted and approved on February 7th.

Walls have dropped 1.5 to 2.5 feet from December, but are up 11.5 to 30.5 feet (depending on the well) from this time last year.

Lawrence Sanchez is concerned about “temporary” tie-ins with parts being used to tie into a line that will be abandoned or removed once they start Phase 3. DFA needs to pay for parts for the life of the company or part. The line still needs to stay active. They do not have drawings for the additional 6” line. They will have a meeting today or tomorrow to discuss if LOW will cover the temporary parts and have DFA pay for the permanent ones.

Dee Jaspar would like to have a copy of LOW’s designs, and have a meeting after they are available to go over how Frazier Park will tie-in.

6. Frazier Park Pipeline Replacement Project.

a. Preliminary Engineering Work Paid Through SHE TA Workplan Funds.

i. Potholing and Mapping.

The potholing and mapping is complete.

ii. Engineering and Design.

v. Review Invoices.
