The application was submitted but SHE hasn't heard anything back yet. They will touch base with Lawrence Sanchez to see if he has any updates.

**7. Discussion/Vote on Pipeline Replacement Project.**

**a. Discussion/Vote on Potholing and Mapping.**

Dee Jaspas suggested an experiment to see how successful they can be in locating the steel pipes. He would like to prepare a budget for a week of work with his firm's college intern. He estimates it would cost about \$500 a day for five days. He would utilize the leak map prepared by GM Allison to find a place to start where the pipes are the worst. During this week the Frazier Park crew and GM would learn the operation and capabilities of the pipeline locator, while Dee can calculate how much pipe could be located per day, on average. A new request for TA funds could be submitted, but it would take several months to approve, and the intern is only available during the summer.

**Motion: Move that we allocate the \$2,500 to finance the study of locating pipe, and what it's going to take to extrapolate into an amount that we can apply for funds for, to be taken out of the Pipeline Fund.**

**Garcia/Schoenberg 5/0/0, Motion Passed.**

**Aye: Garcia, Gipson, Kelling, Neyman, and Schoenberg.**

**b. Discussion/Vote on Project Funding.**

Linda Sheldon reported that after the initial check run, the Revenue/Operating Account had \$192,821.83. Afterward, two additional checks were cut. The first was for \$1,600 to replace a voided check, and the other was \$1,000 to the USPS to cover mailings.

After reviewing an invoice for the purchase of pipe and clamps for inventory, Director Neyman asked for the District to track the stock of clamps as they are used for repairs. GM Allison clarified that clamps used are listed on the repair orders, but he will reiterate to the crew the need to continue to do this.

**Motion: Move that we pay our bills.**

**Schoenberg/Garcia 5/0/0, Motion Passed.**

**Aye: Garcia, Gipson, Kelling, Neyman, and Schoenberg.**

**11. Manager's Report.**

GM Allison explained that about two years ago, while doing comparisons on meter brands for the replacement project, four different meters were installed in his own side yard. Instead of reading the usage, the crew estimated his main meter. Recently, he discovered that his water meter was still being estimated. To correct this, GM Allison went back 23 months in his audit, and calculated \$238 in unpaid usage. He paid \$240 on his account, and the meter will be read moving forward. All meters that are estimated will be reviewed monthly to prevent any new issues.
